

## **Elections to Council Nucleus and Nominating committee 2024-2026**

## Motivation letter: Why are you interested in joining the Council Nucleus or Nominating committee (250 words max)?

Coming from an Eastern Europe country, but having a great medical community, I consider that collaboration between countries and sharing experience represents the key point in improving the standards of care all around Europe. I value diversity and I would like to be involved in the process of individualization and accumulation as well as in the process of spreading different experiences between community members to increase and unify quality of care.

Let me introduce my candidacy, highlighted by the following essential points:

- Being the President of the Romanian ACC Working Group and Board Member of the Romanian Society of Cardiology provides me an amazing opportunity to contribute at building and strengthening one of the most active cardiology communities.
- I was honored to be a member of the ACCA Education and Training Committee, maintaining my position within the ACCA Education pillar, and currently serving as the ACCA representative in the ESC Council of Education and Accreditation.
- I have co-authored the Acute Cardiovascular Care Association Position Paper on Intensive Cardiovascular Care Units, which was published in the European Heart Journal.
- Additionally, I participated as a co-author, representing Romania, in The ACCA
  White Book 2016, Moreover, I have contributed as a co-author to three online
  courses hosted on the ACCA ESCel platform.

Over the years, I have served as a **reviewer for ESC Congress and ACCA Congress** abstracts, contributing to the advancement of cardiovascular science and practice.

In summary, my diverse engagement and contributions reflect my steadfast dedication to advancing cardiology and fostering collaboration in the European medical community.

I am eager to bring my expertise to the role of **Liaison Officer** and continue fostering impactful partnerships across borders.

Thank you for considering my candidacy.

Prof. Dr. Diana TINT
