

"I am an ESC professional member and member of several working groups and councils. Since 2022, I have served as Secretary in the Council for Cardiology Practice 2022-2024 and was appointed as member of council on Stroke 2022-2024 as a representative of the Council of Cardiology Practice. In order to actively contribute to the activities of the council, I have tried to learn the work process of the council and the ESC, for example by participating actively in all council meetings, by participating in the developing a manuscript for two ESC surveys and participating as a chairman at the annual congress in 2023 of the council of stroke as a chairman. It has been great to expand my knowledge regarding how the councils and the ESC works. At the same time, it has been a great privilege to get to know many new, dedicated, friendly colleagues with a similar ambition to contribute to an active scientific community. As a result, I would like very much to continue my work as treasurer in the Council of Cardiology Practice".

Education and employment

1998	One-year research scholarship, Laboratory of Molecular Cardiology, Department of Cardiology, The Heart Centre, Copenhagen University Hospital Rigshospitalet.
2001	M.D., University of Copenhagen
2001	Residency Department of Gastrointestinal Surgery, Copenhagen University Hospital Hvidovre, 6 months. Department of Medicine, Koege Hospital, 6 months. General Practice, Jyllinge, 6 months.
2003	Residency, Department of Medicine, Roskilde Hospital, 12 months.
2004	Residency, Department of Cardiology, Copenhagen University Hospital Bispebjerg
2005	Residency, Department of internal medicine:Cardiology, Copenhagen University Hospital Glostrup
2007	Residency, Department of Cardiology, Copenhagen University Hospital Gentofte
2010	Specialist in Cardiology certified by the Danish National Board of Health.
2010	Fellow, Department of Cardiology, The Heart Centre, Copenhagen University Hospital Rigshospitalet.
2011	Consultant, Department of Cardiology, Copenhagen University Hospital Herlev
2012	Consultant Cardiologist, Department of Cardiology, Hilleroed Hospital
2012	European Society of Echocardiography transthoracic echocardiography accreditation.
2012	Ph.D., Copenhagen University.
2014	Consultant Cardiologist, Copenhagen University Hospital Herlev.
2014-2023	Director, Clinic for Thrombosis, Copenhagen University Hospital Herlev
2017-2019	Secretary, Danish Society of Thrombosis and Hemostasis.
2019-2021	President, Danish Society of Thrombosis and Hemostasis.
2021	Consultant in Cardiology and Thrombosis/hemostasis, The Danish Agency for Patient Complaints
2022	Specialist in Thrombosis & Haemostasis
2023	Senior researcher, team leader, Steno Diabetes Center Copenhagen, Complications research

Courses, Meetings, Congresses

Participated in countless courses in internal medicine and cardiology both in Denmark and abroad.
 Participated in many international conferences and meetings, among these AHA, ACC, ESC, Heart Failure (ESC) and Echocardiography (ESC).

Research

My research has had a broad scope in cardiovascular medicine, especially with a focus on epidemiology, thrombocardiology and cardio-oncology. Presently, my main research focus is complications of diabetes.

I have numerous international research collaborations f.ex. with the Universities in Frankfurt, Groningen, Stanford.

Ph.D. 2012, Ph.D., Copenhagen University.

Reviewer, Cardiovascular Diabetology, BMC Cardiovascular Disorders, Danish Medical Bulletin, American Heart Journal, Thrombosis and Hemostasis, European Respiratory Journal.

Supervisor for 8 Ph.D. students and 1 Post. Doc.

Investigator in several clinical studies including the GLORIA-AF study.

Primary Investigator, Phase III study of oral Factor XIa inhibitor for atrial fibrillation.

Steering group member:

1. Attend-PE (“Structured in-hospital care and cross-sectorial rehabilitation following pulmonary embolism: A nationwide, multidisciplinary research program”), national multicenter trial.
2. MOVE-PE (“Efficacy of a structured outpatient cardiopulmonary rehabilitation program to improve functional capacity in symptomatic patients after pulmonary embolism”), international multicenter trial.
3. The STENO HEART study (“Screening with natriuretic peptides and intervention for heart failure in outpatients with type 2 diabetes”)

Prime-CKD Scientific Executive Committee member

Academic and administrative activities

Past secretary, Danish Society of Thrombosis and Hemostasis, 2017-2019

Past president, Danish Society of Thrombosis and Hemostasis, 2019-2021

Vice-chairman, Danish Society of Cardiology, Working Group of Thrombocardiology.

Author/reviewer National Treatment Guideline, Danish Society of Cardiology - Chapters on pulmonary embolism, anti-coagulations treatment and cardio-oncology.

Participation in endorsement of guidelines from European Society of Cardiology on behalf of the Danish Society of Cardiology - Pulmonary Embolism 2019, Atrial Fibrillation 2020, Cardio-oncology 2022.

Consultant in Cardiology and Thrombosis/hemostasis, The Danish Agency for Patient Complaints

Past member, Danish Medicines Councils group on treatment and prevention of cancer associated thrombosis.

Secretary - Council for Cardiology Practice 2022-2024, European Society of Cardiology

Board member - council on Stroke 2022-2024, European Society of Cardiology

Member, Danish Society of Medical Education.

Member, European Society of the Study of Diabetes (EASD)

European Society of Cardiology professional member
