Basic Cardiovascular
Science

Elections to Council Nucleus and Nominating committee 2024-2026

Motivation letter: Why are you interested in joining the Council Nucleus or Nominating committee (250 words max)?

I hereby submit my candidacy for the position of Chairperson-Elect of the Council on Basic Cardiovascular Science (CBCS). I have been active within the ESC since 2014, as previous Chairperson of the ESC Working Group on Cardiac Cellular Electrophysiology (WGCCE), and as current Treasurer of the CBCS. As member of the ESC Communications Committee (2020-2024), I contribute to press and social media activities focussing on basic and translational science, including the “Translational Science for You” section of My ESC News. I am currently also a member of the ESC Advocacy Committee and the BioMed Alliance Health Research Committee.

I would like to use my broad experience within the ESC to further stimulate basic cardiovascular science within Europe and highlight its need to improve patient care.

As Chairperson-Elect, my key objectives would be to:

- Strengthen our scientific community and facilitate (multi-disciplinary) collaborations and exchange of knowledge and techniques by enhancing interaction between ESC Working Groups
- Increase visibility of basic science by highlighting key research developments (i.e. through representation within ESC Communication and Advocacy Committees)
- Ensure high quality scientific content by actively participating in the ESC Congress Programme Committee
- Expand educational activities (summer schools, (technical) courses, webinars, white papers)
- Mentor young basic scientists and create additional funding opportunities

I look forward to continue my active involvement in the CBCS, expanding and reshaping its role, increasing its impact and securing the future of basic science. I believe I have the necessary enthusiasm, commitment and experience for this challenge.

CURRICULUM VITAE – Carol Ann Remme MD PhD

Last Name: Remme
First Name: Carol Ann
Date/place of birth: July 7, 1970 (Utrecht, The Netherlands)
Gender: Female
Nationality: Dutch
Work address: Department of Experimental Cardiology
Amsterdam UMC, Academic Medical Center, Room K2-104.2
Meibergdreef 9, 1105 AZ Amsterdam, The Netherlands
Tel: +31-20-5663262
E-mail: c.a.remme@amsterdamumc.nl

Academic qualifications:

1989-1997 Medical University, University of Utrecht, The Netherlands (MD degree)
2002 PhD degree obtained with thesis entitled “The ATP-sensitive potassium channel in the heart: functional, electrophysiological, and molecular aspects” (Faculty of Medicine, University of Amsterdam, The Netherlands)

Current employment:

2016 till date Associate Professor and Principal Investigator, Department of Experimental Cardiology, Amsterdam UMC, Academic Medical Center, University of Amsterdam, The Netherlands.
Research Group: Basic and Translational Cardiac Electrophysiology

Past employment:

1997-2000 Unexplained Cardiac Arrest Registry Europe (UCARE) (Department of Clinical Electrophysiology, Heart-Lung Institute, University Medical Center Utrecht, The Netherlands; Head: Prof. Dr. R.N.W. Hauer)
1997-2002 PhD student, Department of Experimental Cardiology, Experimental and Molecular Cardiology Group, Academic Medical Center, University of Amsterdam, The Netherlands (head: Prof. Dr. A.A.M. Wilde).
2002-2004 Residencies in Internal Medicine and Cardiology, Red Cross Hospital, Beverwijk and Academic Medical Center, Amsterdam, The Netherlands
2004-2014 Postdoctoral position/Research Associate, Department of Experimental Cardiology, Academic Medical Center, University of Amsterdam, The Netherlands
2014-2015 Assistant Professor, Department of Clinical and Experimental Cardiology, Academic Medical Center, University of Amsterdam, Amsterdam

Honours and awards (selected):

2018 Outstanding Achievement Award of the Council of Basic Cardiovascular Science (CBCS), European Society of Cardiology (ESC)
2018 Fellow of the European Society of Cardiology (FESC)
2016 Women Transforming Leadership Programme Award (ESC), Saïd Business School, University of Oxford
2014 Principal Investigator, Academic Medical Center, Amsterdam, The Netherlands
2014 Aspasia laureate, Netherlands Organization for Scientific Research (NWO)
2014 Vidi laureate, Netherlands Organization for Scientific Research (NWO)

Active research grants:

- 2024 Dutch Heart Foundation Public Private Partnership grant: PREVENT - Preventing lethal inherited arrhythmias through cardiac sodium channel gene therapy (applicant, PI)
- 2022 Dutch Heart Foundation Dekker Junior Postdoc grant: Unravelling the role of autonomic nervous system dysfunction in inherited arrhythmia syndromes (Mentored: awarded to Dr. Molly O'Reilly)
- 2021 European Joint Programme Rare Diseases (EJPRD): SILENCE-LQTS - SGK1 inhibition as a novel therapeutic approach in Long QT syndrome (co-applicant)
- 2020 Eurostars EUREKA: CARDIOMYO – An integrated HTS platform for the discovery of new therapeutics against cardiomyopathies (co-applicant)
- 2020 Innovation Impulse Grant, Amsterdam UMC, Proof-of-concept for precision medicine in inherited cardiac disorders (co-applicant)
- 2020 BHF-DZHK-DHF Partnership Research Grant, The Genomic basis of Unexplained Cardiac Arrest: The GenUCA Investigators (co-applicant)
- 2018 Cardiovascular Research Netherlands (CVON), Predicting sudden cardiac arrest (PREDICT2) (co-applicant, work package leader)

Current and previous (inter)national activities (selected):

- 2022-2024 Treasurer, Council on Basic Cardiovascular Science, European Society of Cardiology
- 2024 Local organizing committee, Frontiers in CardioVascular Biomedicine (Amsterdam, The Netherlands; April 12-14, 2024)
- 2020-2024 Member of the Communication Committee of the European Society of Cardiology, Basic Science Social Media Editor
- 2022-2024 Member of the Advocacy Committee of the European Society of Cardiology
- 2022-2024 Member of the Declaration of Interest Committee of the European Society of Cardiology
- 2020 till date Scientist member of the European Cardiac Arrhythmia Genetics (ECGen) focus group of the European Heart Rhythm Association
- 2020-2022 Member (ex-officio) of the Board of the European Heart Rhythm Association
- 2018-2020 Chair, Working Group on Cardiac Cellular Electrophysiology, European Society of Cardiology
- 2023 till date Deputy Editor, *EP Europace*
- 2021 till date Deputy Editor, *Physiological Reviews*
- 2021 till date Associate Editor, *Cardiovascular Research*
- 2018 till date Associate Editor, *Journal of the American Heart Association*
- 2021 till date Editorial Board Member of *Heart Rhythm*, *American Journal of Physiology - Heart and Circulatory Physiology*, *Canadian Journal of Cardiology*
- 2000 till date Reviewer for international journals (selected) *Journal of Clinical Investigation*, *Circulation*, *European Heart Journal*, *Circulation Research*, *Circulation Arrhythmia and Electrophysiology*, *Cardiovascular Research*, *Heart Rhythm*, *Europace*, *Cardiovascular Drugs and Therapy*, *British Journal of Pharmacology*, *Journal of Molecular and Cellular Cardiology*, *Canadian Journal of Cardiology*, *Physiological Genomics*, *Biochimica et Biophysica Acta - Molecular Cell Research*, *Frontiers in Cardiovascular Electrophysiology*, *Acta Physiologica*

Invited lectures (selected):

1. Remme CA. Targeting the microtubule network to prevent cardiac arrhythmias. Frontiers in CardioVascular Biomedicine, Amsterdam, April 12-14, 2024
2. Remme CA. Raising the bar: the role of preclinical models in the development of gene therapies for channelopathies. EHRA Congress, Berlin, April 7-9, 2024
3. Remme CA. Approach, Challenges, and Opportunities in Translational & Reverse Translational Experimental Designs. Safety Pharmacology Society Annual Meeting, September 19, 2023, Brussels, Belgium
4. Remme CA. When channelopathy causes DCM: the dark side of the sodium channel. EHRA Congress, April 16-18, 2023, Barcelona, Spain
5. Remme CA. Inherited cardiac disorders associated with sudden cardiac death. 6th Seattle Children's and Microsoft SIDS Research Summit, April 26-27, 2023 (online)
6. Remme CA. Disease modifiers in channelopathies: implications for arrhythmia risk. Association of Inherited Cardiac Conditions Meeting, The Royal College of Physicians and Surgeons, Glasgow, UK, December 12, 2023
7. Remme CA. Pro-arrhythmic effects of elevated branched chain amino acids. ESC Congress 2022, August 26, 2022, Barcelona, Spain
8. Remme CA. Inherited arrhythmias associated with *SCN5A* mutations: a translational perspective. 14th Annual Scientific Session of the Korean Heart Rhythm Society, June 24, 2022 (online)
9. Remme CA. Mechanisms underlying phenotype modulation in long QT syndrome. 88th Annual meeting of the German Cardiac Society, April 22, 2022 (online)
10. Remme CA. Obesity, diet, and cardiac arrhythmias: mechanisms and clinical implications. European Heart Rhythm Association (EHRA) Congress, April 3-5, 2022, Copenhagen
11. Remme CA. Cardiac channelopathies. Winter School 2022, Structural substrates for sudden death in the young – from genes to therapy. March 28 – April 1, 2022, Padua, Italy
12. Remme CA. Pitfalls and opportunities of experimental models for arrhythmia research. ESC Congress 2021, August 30, 2021 (online)
13. Remme CA. Sodium channelopathies, arrhythmias and sudden cardiac death – novel mechanisms and therapeutic strategies. 36th Meeting of International Society for Heart Research (ISHR), European Section; July 1st, 2022 (online)
14. Remme CA. Ventricular arrhythmias during the concealed early phase of arrhythmogenic cardiomyopathy prior to onset of overt cardiomyopathic changes. Annual Meeting of the ESC Working Group on Myocardial and Pericardial Diseases, October 4-5, 2019, A Coruna, Spain
15. Remme CA. Inherited arrhythmias and sudden cardiac death: Modulation of arrhythmia risk by genetic background and common co-morbidities. Freiburg Cardiac Ion Channel Meeting, 20-21 September 2019, Freiburg, Germany
16. Remme CA. Cardiac sodium channel remodelling: Microdomain-specific composition, function, and targeting. Heart Rhythm Scientific Sessions, May 8-11, 2019, San Francisco
17. Remme CA. Macromolecular organization of cardiac sodium channels. Gordon Conference, Cardiac Arrhythmia Mechanisms, March 30 - April 5, 2019, Italy
18. Remme CA. Modulation of arrhythmia risk by interactions of genetic variants and common co-morbidities. Dutch German Joint Meeting on Molecular Cardiology, March 14-16, 2019, Goettingen, Germany
19. Remme CA. Crucial Component: The Sodium Channel and Arrhythmogenicity. American Heart Association Scientific Sessions, Chicago, November 2018
20. Remme CA. Microdomain-specific trafficking and function of Nav1.5 in cardiomyocytes. Annual Meeting of the European Working Group on Cardiac Cellular Electrophysiology (EWGCCE), June 2018, Essen, Germany

21. Remme CA. Arrhythmogenic right ventricular cardiomyopathy: Novel *SCN5A*-dependent mechanisms and clinical implications. 84th Annual Meeting of the German Cardiology Society, April 4-7, 2018, Mannheim, Germany
22. Remme CA. Splicing and trafficking as mechanisms of inherited arrhythmia diseases. Heart Rhythm Scientific Sessions, May 9-12, 2018, Boston, USA
23. Remme CA. Microdomain-specific sodium channel macromolecular complex composition and function in cardiomyocytes. Frontiers in Cardiovascular Biology, 2018, Vienna
24. Remme CA. Late sodium current inhibition in inherited arrhythmias. European Heart Rhythm Association Congress (Europace-Cardiostim), June 18-21, 2017, Vienna, Austria
25. Remme CA. Sodium Channels at the T-Tubule and their Role in Intracellular Calcium Homeostasis. Heart Rhythm Scientific Sessions, May 10-13, 2017, Chicago, IL, USA
26. Remme CA. Ventricular arrhythmias in channelopathies: drugs and device treatment. European Society of Cardiology Congress, Rome, Italy, August 27 – 31, 2016
27. Remme CA. SCN5A overlap syndromes. Scientific Sessions of the Heart Rhythm Society, May 4-7 2016, San Francisco, USA
28. Remme CA. *SCN5a* and the presence of cardiomyopathies. Scientific Sessions of the American Heart Association, November 7-11, 2015, Orlando, USA
29. Remme CA. Non-canonical functions of sodium channel proteins. European Society of Cardiology Congress, London, UK, August 29 – September 2, 2015
30. Remme CA. Desmosomes, sodium channels and the genesis of the arrhythmogenic substrate in ARVC. EHRA Europace – Cardiostim 2015, Milan, Italy, June 21-24, 2015
31. Remme CA. Cardiac channelopathies: novel insights in pharmacological treatment. Sudden Cardiac Death Symposium, Bern, Switzerland, 6-7 November 2014
32. Remme CA. Brugada syndrome – an experimental perspective. Heidelberg Heart Rhythm, 27-28 September 2013, Heidelberg, Germany
33. Remme CA. Sodium channel abnormalities and cardiac conduction disease. EHRA Europace, 23-26 June 2013, Athens, Greece
34. Remme CA. Genetic, molecular, and functional insights into the diverse roles of sodium channels in the heart. Ion Channel Symposium, 23-24 May 2013, Copenhagen, Denmark
35. Remme CA. Cardiac channelopathies. Heidelberg Heart Rhythm, 21-22 September 2012, Heidelberg, Germany
36. Remme CA. Cardiac sodium channelopathy: electrophysiology and beyond. Cardiac & Respiratory Physiology Themed Meeting of The Physiological Society, 4-6 September 2012, Manchester, United Kingdom
37. Remme CA. Brugada syndrome: a developmental perspective. European Society of Cardiology Congress 2011, 27-31 August 2011, Paris, France
