Council on Stroke ESC

Prague on 30.3.2024

I would like to request an application for the position of Treasurer Council on Stroke ESC for the future period.

Rationale: For a long time, I led the Czech Cardiology Society as chairman, for the next four years I served as vice-chairman of the society, and I currently lead the Association of Preventive Cardiology of the Czech Society of Cardiology.

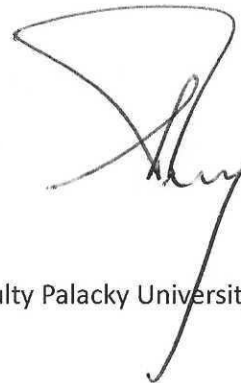

I was also active in the leadership of the Council on Stroke. I have long-term experience both in clinical and scientific work, as well as in the organization and management of professional companies.

The position of Treasurer Council on Stroke is a big challenge for me personally, especially in a situation where the European Society of Cardiology is not in optimal financial condition.

Knowledge of the transparency of approaches to financial resources, the ability to apply grant projects, networking and, finally, knowledge of control processes during project evaluation are, in my opinion, optimal prerequisites for the performance of this function.

I would like the Council on Stroke to be perceived in the long term as a highly professionally valued professional organization with permanent growth, financial and personnel stability.

I can personally vouch for this and therefore I am applying for the position of Treasurer Council on Stroke.

Prof. Milos Taborsky, M.D., PhD, FESC, FACC, MBA

Head, Cardiovascular Center UH Olomouc and Medical Faculty Palacky University Olomouc
