

CRT event on Artificial Intelligence 13 & 14 November 2024

Rapporteur Performa

BREAKOUT ABOUT “WHAT ARE THE BOUNDARIES & LIMITATIONS FOR AI SUCCESSFUL IMPLEMENTATION?”

Group 3. Industry perspective

1) Data

- Communication: Lack of positive advocacy for sharing/providing data
- Access and discoverability of (multimodal) data
- Lack of validation, lack of alignment of data quality, different labelling

2) Lack of interoperability and integration

- Lack of standardized systems
- Unharmonized/ unstructured data quality, no enforcement for standards

3) Lack of value proposition

- Lack of evidence
- Adoption of end users (doctors) not incentiviced/ lack of value proposition

4) Negative advocacy

- Media and regulators are rather risk-based
- Fear of loosing control
