

Mrs. Jessica DOLAN, GE Healthcare

GE HealthCare EMEA Cardiology Pathways Solution Manager.

Jessica Dolan leads Cardiology Solutions for the EMEA Clinical Pathways Team. She is responsible for developing and commercializing the cardiology-specific pathway strategies and value propositions. Her focus lays in creating strategic cardiology partnerships with customers that leverage the breadth and depth of GE's portfolio and capabilities.

She has been with GE HealthCare for 10 years in primarily commercial & solution architect roles and graduated from GE's Leadership Program in 2015. Her healthcare experience spans both the United States and EMEA. She holds a business degree from Butler University.
