

Dr. Archana RAO, UK

I am a Consultant Cardiologist and Clinical lead for EP and Devices at Liverpool Heart and Chest Hospital, UK, a large cardiac tertiary center in the Northwest of England.

I am primarily a Heart Failure and Cardiac Devices Consultant.

I deliver all forms of advanced pacing including cardiac resynchronization, leadless, subcutaneous and extra vascular ICDs and conduction system pacing.

I am also responsible for the Lead extraction services for the region and am a high- volume lead Transvenous lead extractor.
