

Dr. Bram ZUCKERMAN, FDA

Dr. Bram Zuckerman completed training in internal medicine at Baltimore City Hospital and cardiology at the Johns Hopkins program. Prior to joining the FDA in 1992, he performed research in pulsatile hemodynamics and practiced cardiology in Colorado and Virginia. He joined the FDA Division of Cardiovascular Devices (DCD) as a Medical Officer in 1992 and was involved in development and review of clinical trials for many new cardiovascular devices. In 2001 he was appointed Deputy Director in DCD. He was appointed Director of the FDA Division of Cardiovascular Devices in 2002 and most recently to Director Office of FDA Cardiovascular Devices in 2018.
