Heart Failure Awareness Days 2024

Activities report post HFAD

Country: **CROATIA**

Name of reporters: Professor Duska Glavas, FESC, FHFA

Programme and events (summary)

- This year in Croatia we organized not just Heart failure (HF) Awareness Week in the period from Monday 29
 April to Sunday 5 May 2024, but a whole HF awareness month (until 31 May) in the main cities and villages,
 especially in Split and Zagreb.
- In Split and Dalmatia region, we organized Heart failure awareness days in the period from April 29 until May 31.
- On 14 and 21 May we organized HF awareness days of Cardiovascular Clinic for out-patient population in cardiology policlinic University Hospital Split and Zagvozd (village in Dalmatia region), as well as in private policlinics in Split.
- In summary, during awareness days this year we provided a lot of activities:
- open hours in Hospital, Public Institute of Health, out-patients clinics, in the cities and villages
- we offered the measurements of glycaemia, blood pressure, lipids, BMI
- we informed our patients about disease and prevention
- we informed radio, television, press and web-sites in advance about activities and during the event
- we organized a debates with heart failure specialists and specialists in cardiovascular prevention from Institute
- we prepared material about heart failure for patients and healthy persons
- we involved HF patients group
- we arranged the public event, during the days of town Split (City Patron St. Domius/Duje)

Public Event/Open clinic

- On 2 and 7th May (a day of town Split-patron saint Duje), we organized "Open Doors" of Heart failure Clinic, University Hospital Split, that our patients could come for advices
- We organized open hours programme about heart failure and cardiovascular diseases at the Institute of Public Health in Split together with colleagues from epidemiology field, students of medicine, and young cardiology specialists
- Activities took place at University of Split School of Medicine with organized lectures for students and postdoc colleagues
- In the capital town Zagreb, on May 25, a large preventive action was organized on the main square "Ban Jelacic"

Public Event/Open clinic

Public Event/Open clinic
